MEETINGS THIS DAF Stonewall Fire Company, at half-past 7 P. M.

THE MARINER'S CHURCH .- There will be services in the Mariner's Church, Church-street, tomerrow, Sunday, at halt-past ten o'clock in the morning, and balf-past three o'clock in the after-

EARLY SPRING NAVAL STORES .- We notice the receipt of fourteen barrels new crop pale rosin, in this market, from the turpentine farm in St Thomas' Parish of Messrs. J. A. Enslow & Co., and made of the crude gathered this season. Messrs. J. A. E. & Co. have sold this, the first arrival of the season, at eight dollars per barrel. J. C. Schuler is the supervisor of the farm, and deserves much credit for the earliest production of naval stores this

THE GREAT ORGAN AT ST. PHILIP'S .- The former trial of this fine instrument took piace last evening to the delight of an exceedingly large audience. It was successively manipulated by Profes sors Ruddock, Berkham, Eckel, O'Neill, Harrison, and Mr. Trott, of Cincippati, son of our popular postmaster. The test developed the fact that for variety of stops and resources for all purposes of church music it is unrivalled. The vox humana is natural and unexcelled, whilst the general harmony is singularly perfect. In tong it is sweet, delicate and full of richness and power, and it may be safely said of it that its construction reflects additional lustre on the skill and mechanical accompli-hment of Mr. John Baker, the builder.

JAMES ROBINSON'S CINCUS. - James Robinson, more familiarly known to our older readers as "Little Jimmie," the boy who performed such woncerful feats in this city about twenty years ago, is now the proprietor of the best circus in America. A magnificent rider himself, be performs some of the most difficult and astounding feats of his show, and he knows how to choose other good rerformers and make them do their duty. He has with him a little son, who is as wond rful as his father was at his age. A fail list of the attractions of the circus is given in the advertisement in another column The first exhibition will take place on Monday night, and tickets should be bought early to avoid the crowd which will rush to see what sort of a man "Little Jimmie"

PURIM .- On the 14th day of the twelfth month, Adar (February 25), the Israelites eslebrate the festival of Parim in commemoration of the deliverance of the Jewish pation from destruction in consequence of the vile plots of Haman, the confidant of King Abasucrus, as may be read in the bookfof Esther, in the Old Testament. It is not what is strictly called a Mosai: feast, but a Rabbinical festival, a kind of ha f-fe ist day. From time immemorial it has been celebrated by the Jews by domestic joys at the table, by sending victuals and gifts to kindred and friends, by giving alms to the poor, and by the reading of the book of Esther at the syna- Barnwell; E M Ruc'er, Georgia; SE Johnson, South gogue, and a special prayer of thank-giving. THE WHITE FAWN .- There was another unusually large audience at the theatre last night to witness the gorgeous spectacular drama. There LJHill, Marion; SM Sceley, Louisville; PK Vance, was more smoothness in the impersonations of character and improvement in the pictures presented. Some of the scenery is rich, and must have cost labor and thought in its arrangement, and, when the size of the stage and other embarrassments are considered, the wonder is that Templeton has been able to bring it out a- well as he bas. The ballet dincing, especially by Diani, is a marvel of motion and grace, and was loudly encored. The Vane sisters still hold the favor of the public, while Harriwon a reputation with us that their genuine merit warrants. To-day there will be a matinee at two o'clock, when the admission will be reduced to half price, and thus afford an opportunity to those to attend who cannot do so at night.

CLUBS AND STARS .- The following cases were disposed of yes erday at the Mayor's Court: William Davis, with many aliases, colored, for stealing vegetables, was sent to the House of Correc-

proper conduct. A brown dog, taken up going at large in King, near Queen-street, will be killed if the owner does not pay \$2 for license and \$5 for penalty.

Martha Drayton, colored, was arrested by Detective Reed vesterday, and after tasting of the cell for soms time, she told the whereabouts of a lot of sheets, pillow-cases and crockery she had stolen from Dr. King, Broad-s'reet.

A colored man was found secreted in the premises of Captain Corrie last right, and before he did any mischief was taken to the guardhouse.

A sailor, on Savannah Poat What, committed an assault and battery on a colored man yesterday, but managed to escape to ore he could be arrested.

PATAPSCO GUANO.

Letter from James Pagan.

CHESTER, FOUTH CAR LINA, Jaquary 6, 1869.

Dear Sir-I have just received a communication

from Geo. W. Grafflin, Esq., Treasurer of Patapso

Guano Company, requesting my opinion of the "PA

TAP-CO," to be sent direct to you-which I take

pleasure in doing, as I sine-rely believe that it is the

best fertilizer now in use. I have tested its merits

fully, and find those who have used it alongside of

other popular fertilizers, do not hesitate to give it

as there are merchants who deal in it. No two

houses recommend the same kind, but during the

last season I had a good opportunity of introducing

I gave to ten (10) different planters 500 pound

take part of the product for pay. They all succeede

I began in 1867, and have not heard one man say

it did not over-pay him for his outlay. In some re-

spects it must be superior to the Peruvian Guano.

For instance, you can mix the seed with the PATAPS-

co, and the Peruvian must be covered before plant

ing. The "Parapsco" acts at once upon the sprouts,

as soon as it comes from the seed and makes it start

right off growing, and prevents the sickly stage

which cotton, without the stimulus, has to go

through-you know this. For two or three weeks

the cotton plant is in a condition which is so pre-

carious that no planter can cay that he has a certain

stand I bolieve the "Parapsco" secures a better

and more healthy stand than can be had by the ap-

pileation of any other fertilizer. I speak from ex-

periments made for two years. I have planted a lit-

tle cotton for the purpose of watching the result,

and am sure that rolling the seed in PATAPSCO

Guano will secure an early and healthy stand of cot-

ton, which is like getting a good start in any kind of

I would recommend 250 to 300 pounds to the acre

I made 600 pounds but from one acre by planting 500

pounds of "Pararsco," which made 260 pounds the

year before without it, and the season of 1867 was

better for cotten than 1863. The same field on the

part not fe tilized made more in 1867 than in '69. I

thing it would pay best, however, for about 500
